

# DTSC WORK NOTICE

**Department of Toxic Substances Control (DTSC)** - Our mission is to protect the people, communities, and environment of California from harmful chemicals by cleaning up contaminated sites, enforcing hazardous waste laws, and compelling the development of safer products.

May 2020

## **Site Maintenance Former PureGro Facility Property 1025 River Drive, Brawley, California**

### **What is the work?**

- Apply a dust suppressant called Soil Sement®, which is a commonly used product for dust control, erosion control, and soil stabilization
- Inspect site fencing and inspect the erosion control blankets on the soil stockpile
- Conduct routine groundwater sampling

### **What is the purpose of the work?**

- Prevent dust generation from the site
- Sampling of groundwater

### **When will you see work?**

- Work will occur 3 to 4 days between June 1 and June 5, 2020
- Activity is expected to begin at 7:00 a.m. and end by 6:00 p.m. each day

### **What work will you see?**

- Small team of workers and their vehicles to apply dust suppressant
- Groundwater sampling

### **What safety measures will be in place?**

- The site is fenced, and worker vehicle speeds will be reduced on and near the site
- All work will adhere to DTSC requirements and the site's Health and Safety Plan; workers will adhere to state, county, and city public health protocols regarding COVID-19

### **How will the work impact you?**

- All streets will remain open as usual; work will be done within the boundaries of the site

### **Who will do the work?**

- Environmental contractors will perform all activities
